

Healthy IT for a healthy company: Cerreto Bio chooses Syneto

Overview

Company: Cerreto Bio

Location: Italia

The Challenge

- Find a solution that is easy to manage.
- Ensure data protection.
- Efficient intervention in case of technical issues.

The Solution

- Easy management through **one-click operations**;
- **Data protection** with instant automatic backups;
- A **pro-active monitoring** and prevention service.

Customer Profile

Cerreto Bio is known as an Italian leading producer of organic foods. In the 90s Cerreto started the production and distribution of herbs, spices, vegetables, legumes, cereals, and vegetable-based preparations. At the end of the 90s, the company undertook a challenge: organic food.

Cerreto Bio had fully adopted the trend of „bio” food and is dedicated to offering only healthy and balanced food alternatives.

The Challenge

Cerreto Bio was faced with the challenge of finding a new, up-to-date IT infrastructure that would serve its management needs. The company wanted an IT solution that was easy to manage and didn't add unnecessary complexity to daily business activities.

Security threats are a real cause for concern nowadays and the company was aware of that. Cerreto Bio also wanted to make sure that its data was well-protected, as well as always available for use.

The Solution

Cerreto Bio has chosen a Syneto solution thanks to its ability to simplify, accelerate and protect IT operations.

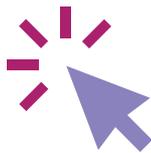

The chosen solution was simple to deploy, but it is also simple to manage, as many operations are done through just one click.

The fact that this is an integrated IT solution and offers a single point of management

has both simplified and accelerated the company's IT operations. The product's backup and recovery capabilities ensure that all the valuable company data is safe.

With SerenITy, Syneto's pro-active support service, IT management is even further simplified. SerenITy helps with the monitoring and prevention of several IT malfunctions before they even happen.

„We have chosen Syneto for three simple reasons: the simplicity of installation and management, the acceleration of operations through having just one management tool and the protection, which is so important nowadays.” - Paolo Arlotti - CEO, Next, Cerreto Bio IT partner

Easy management

Data can be backed up, restored, and recovered with just one click.

Data Protection

Through efficient instant automatic backups of all the data.

Pro-active support

Through SerenITy, a service that offers automatic monitoring and support capabilities.
